NTPC	325	269	373	328	25N	Positive	Incorporated in the year 1975, NTPC is India's largest power generation company in India and contributes 25% of total power generation of India as of December 31, 2023. The focus will be more on renewable/clean energy. NTPC is likely to benefit from the upcoming investments in the power sector given its robust thermal portfolio. NTPC's Robust Thermal Assets also provide Cash Flow visibility. NTPC has also advantage as it can mobilise funds at a lower cost of debt to private peers puts it in a competitive position. Furthermore, Considering a thrust on renewables and simultaneous enhancement of thermal capacity. We believe NTPC is a good portfolio bet given its stable dividend yield, and a further rerating potential could be on cards as its annual revenue growth of 31.84% outperformed its 3-year CAGR of 16.39%.
